Interests

Electronics	Design, assembly and soldering of small electronics devices. Last project: an arcade stick with detachable cable and compatible with various systems.
Learning	Acquiring new skills. Currently learning Ruby, SML and TkInter. Once I settle down I plan to learn German, French and some martial art as physical activity
Game design	Mainly card and boardgames. As stated above, I won a contest in card game design.
Hobbies	Taking online and summer courses, traveling, cooking, taking long walks, science fiction and martial arts cinema, model kits, comics and fighting games.

Personal Skills

Lateral Thinker	Crazy ideas may not be the correct ones all the time, but they are always interesting and worth exploring.
Problem solving skills	With a good dose of a "let's fix it" attitude and very passionate. Doubly so if I have to learn new skills to tackle the problem. I'd like to insist about it: I really love to learn new skills, even if they don't seem practical at first.
Team worker	Silver tongue with great exposition skills. Supportive to others, happy to share and support ideas and fun to have around.
Curious and polymorphic	I just can't resist the temptation of trying my hand at tasks I've never done before and figuring out how things work.
Perseverant	Even in the direst circumstances I still push on.
